

Launching in 2020

Industry skills brokerage

Delivering outreach support, guidance and provision signposting to those furthest away from the labour market.

Our **industry skills brokerage** will provide a collaborative framework which will determine the needs of industry, identify current and future skills gaps and understand the wider macro-economic environment in Cumbria.

The brokerage will provide individuals with tailored guidance, support and provision signposting to enable each individual to advance their journey into further education, training and meaningful employment.

The industry skills brokerage vision is for it to be supported by local hubs with skills advisors and resident navigators. They will work in partnership with key stakeholders to support the development of a trained and capable local workforce.

Industry skills hub centrally located within communities. Locations determined by data driven community needs assessment and partnership work with key community partners (Department for Work and Pensions, local government, housing associations etc). The hub will be operated by the industry skills advisor and located within existing local community centres / housing association offices located on the ward / estate. Resident navigators will work in the community and from within the hub.

Industry skills advisor will use a 'provision map' and supported 'career journey map' to mentor, guide and support individuals via signposting to various existing provision to help train or upskill persons into meaningful employment.

Resident navigators will be local residents working specifically in their own community to help mentor, guide and support their peers bringing them closer to / into the labour market, leading to meaningful employment.

All Together Cumbria is a social enterprise delivering real change in Cumbria.

The funds generated through All Together Cumbria via the collaborative partnerships are reinvested to enable greater employment opportunities through defined strategies, skills awareness, development and training.

Supported by industry, we provide effective and efficient management of current and future employment opportunities and challenges within the area via our industry skills brokerage and dedicated recruitment desk.

We are passionate about making visible social change. Through our unique partnerships we work together to determine the needs of individuals, our community and industry through data driven needs assessment. We identify and implement solutions that develop a more sustainable workforce of the future.
